SUMMARY

I'm a Software Engineering undergraduate with a strong passion for full-stack development. I have experience in building both front-end and back-end components of web applications. I'm eager to contribute to innovative projects, enhance user experiences, and continuously grow by learning new tools and technologies.

PROFESSIONAL EXPERIENCE

Intern Full-stack Developer
Apptota Solutions
Kandy Road, Dalugama.

Oct. 2024 - February 2025

Contributed to the development of full-stack web applications, including front-end design, back-end logic, and database management using PHP, MySQL, and JavaScript. Gained hands-on experience in building dynamic websites and optimizing existing features for better performance and user experience.

Key Projects Designed

- **Business Website Platform (PHP, MySQL)**– Designed and developed a full-stack business website using PHP and MySQL. Built a responsive front-end layout with HTML, CSS, and JavaScript, and implemented server-side logic for dynamic content, contact forms, and data handling. Managed database integration and ensured smooth performance across devices.
- **Ecommerce Web Platform (PHP)** – Contributed to an existing PHP-based eCommerce application by resolving functional bugs, improving database queries, and enhancing checkout and product management features.

EDUCATION

BSc. (Hons) in Software Engineering
June 2022-Present

Saegis Campus, Nugegoda

G.C.E Advanced Level
Eheliyagoda [2020]

R/Eheliyagoda National College,

G.C.E Ordinary Level

R/Eheliyagoda National Collage
[2017]

PROJECTS

- **QUIK-BILL – POS System**

Technologies: PHP, MySQL, JavaScript

Developed a web-based POS system with sales tracking, invoice generation, and inventory management. Included secure login, responsive design, and daily report features.

- **FOOD ORDERING SYSTEM**

Technologies: PHP, MySQL, JavaScript

Created a food ordering platform with menu browsing, cart functionality, and order management. Admin panel included order tracking and item updates.

- **EXPENSE TRACKER**

Technologies: Laravel (PHP), MySQL, HTML

Built a Laravel-based app to track daily expenses with category filters, summary reports, and user authentication for personal finance management.

- **E-COMMERCE PLATFORM**

Technologies: PHP, MySQL, JavaScript

Developed a functional e-commerce site with product listings, shopping cart, and secure login. Admin panel supported product and order management.

TECHNICAL SKILLS

- **Programming Languages – PHP, JAVA SCRIPT, JAVA**
- **Frameworks – ReactJs, NodeJs, ExpressJs**
- **Database – SQL, MongoDB**
- **Version Control – Github**
- **Project Management – Jira, Trackerwork**
